

FleetTraks Equals Optimum Control

FleetTraks from On-Board Communications provides the latest in proven technologies—Global Positioning Satellite Systems (GPS), Wireless Communication and the Internet for optimum viewing, tracking, monitoring and management control.

View your vehicles on high quality maps that allow you to zoom in to street level locations. All you need is an Internet connection and a browser to view and manage your remote assets. We provide:

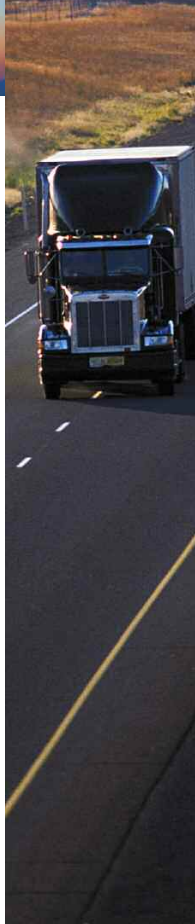

- Route Plotting to easily identify where vehicles have been
- Detailed reports identify last known positions
- View one or all vehicles at once

Dashboard Application

On-Board Communications exclusive Dashboard Application enables managers to view the status of the entire fleet on one screen – in real-time. Know immediately when a driver makes an unscheduled stop or ends the day early. Also, know how many of your people are at customer sites, the office, or home – in real-time.

Measure fleet performance against your preset benchmarks, or compare individual performance to the entire fleet. Quickly and effortlessly identify employees that need additional training or are not measuring up to the overall fleet performance metrics.

A history that speaks for itself

The On-Board Communications' management team brings over 100 years experience and innovation in product and network development including intelligent wireless mobile communications, emergency dispatch, fleet management and mobile asset-tracking solutions. The team has pioneered development in enhanced cellular networks and GPS for emergency service, roadside assistance, information, route guidance, two-way messaging and theft detection/tracking and has brought wireless solutions to over 80,000 vehicles.

FleetTraks Management System delivers targeted success

FleetTraks™
On Target Fleet Management

**FleetTraks™ delivers
affordable, state-of-the-art
Fleet Management**

**Your FleetTraks™ Fleet Manager
targets productivity, profitability
and customer relations from your
on-line control center**

FleetTraks™

On-Target Fleet Management System

FleetTraks delivers an intelligent, easy-to-use solution to increased productivity, improved customer relations, and enhanced route management for a low monthly fee.

Once your fleet is on the road, it's like a moving target that constantly needs to be in sight. FleetTraks' solution targets the critical needs of the Fleet Manager through a powerful yet extremely easy-to-use web interface. Vehicle location and status, employee activity, scheduling metrics, and customer satisfaction are always within the scope of your control — nationally and throughout Canada and Mexico.

On-Board's FleetTraks
installs easily
within minutes

Target Productivity, Service, Reduced Costs, and Significant Returns on a Minimum Investment

Streamline Fleet Management Control

- Validate fleet activity
- Reduce unnecessary stops and out-of-route mileage
- Proactively track vehicle maintenance intervals

Improve Productivity and Increase Sales

- Boost driver and worker productivity
- Add billable hours
- Increase service calls and deliveries

Reduce Costs and Increase ROI

- Lower fuel and vehicle operating costs
- Optimize driver utilization
- Eliminate unauthorized vehicle use

FleetTraks is one of the smallest wireless/GPS tracking products on the market today, and it installs quickly and easily.

Strengthen Customer Service

- Meet and exceed delivery time goals
- Ensure on-time performance
- Provide accurate and reliable service

Low Cost Vehicle Tracking

FleetTraks is economical and complete. It includes the GPS receiver, wireless communications, antennas and mounting hardware for easy installation.

A variety of service plans and flexible financing options are available to meet your needs. All plans include unlimited use of On-Board's Internet-based data center for viewing maps and data.

FleetTraks™
