

## LiftTraks Equals Optimum Control

LiftTraks from On-Board Communications provides the latest in proven technologies – dependable robust network and the Internet for easy, optimum viewing, tracking, monitoring, and management of lift trucks. No special software required.

View your lift trucks on high quality screens that allow you to view reports in unit detail and fleet summary for billing, PM, and equalization. All you need is a browser and Internet connection to view and manage your remote assets – one at a time, or all at once.

## Low Cost Lift Truck Tracking

LiftTraks is economical and complete. It includes mobility communication that delivers excellent in-building penetration and is packaged with antennas and mounting hardware for easy installation.

A variety of service plans are available to meet the needs of any application. All plans include the use of On-Board's Internet-based data center for viewing report data. Call us at (877)340-0300 x 238 or email us at LiftTraks@on-boardcommunications.com for a plan that fits your needs. Take advantage of advanced technology and start tracking today!

## A History that Speaks for Itself

*The On-Board Communications' team brings over 100 years experience and innovation in product and network development including intelligent wireless mobile communications, emergency dispatch, fleet management and mobile asset-tracking solutions. The team has pioneered development in enhanced cellular networks and GPS for emergency service, roadside assistance, information, route guidance, two-way messaging and theft detection/tracking and has brought wireless solutions to over 80,000 vehicles.*

## LiftTraks is Your Use and Time Monitoring System

Wherever your lift trucks are, LiftTraks is there too. Use LiftTraks to improve ROI, ensure reliability, maximize billing, extend equipment life, plus enhance the salability of your lift trucks.

# LiftTraks™

**Affordable...Flexible...Profitable**

**Affordable, accurate monitoring of lift truck usage for preventive maintenance and invoicing makes LiftTraks indispensable for the dealership, rental company, and operator.**

With LiftTraks, you know how your asset is being used so you can ensure that it is used as it should be. LiftTraks, a low-cost monitoring system, streamlines management of lift trucks for dealers and operators. LiftTraks helps you keep track of engine hours, equalize unit usage, schedule preventive maintenance, and ensure accurate time-based billing to build profits and better manage your business.

Let On-Board show you how customers use LiftTraks to manage facility lift trucks and benefit with a quick consistent return on investment.

## Essential Data at Your Fingertips

With LiftTraks, the most important lift truck data is filtered into easy-to-use preventive maintenance schedules, supported by email notification and, easy-to-read reports for lift truck fleet equalization, projected expenses, and power-by-the-hour billing.

## Equalize Asset Utilization Across the Entire Fleet

- Evenly allocate lift truck use throughout its life cycle
- Attain consistent billing for each unit
- Gain full value from depreciating unit – avoid old, out-of-date, underused units
- Ensure equal maintenance of all Lift Trucks
- Maintain warranty compliance on all units
- Equalize hours and PM across the entire fleet

## Reduce Costs with Usage-based Preventive Maintenance

- Eliminate unnecessary maintenance common in date-based plans through an accurate usage-based schedule

## With LiftTraks You Can

- Establish on-line maintenance schedules by tracking hours of lift truck usage
- Know when maintenance thresholds are met through email notification
- Track hours of equipment usage to more accurately invoice renter/lessee

## Feature Highlights

- Intelligent network mobility reporting via network paging
- Flexible engine hours reporting
- Exception reporting
- Automatically integrate hours reporting into existing systems
- Ignition on
- Battery back-up

**OBC9000**

*LiftTraks is one of the smallest network mobility tracking products on the market today. The OBC9000 measures just 1 x 2.5 x 3.5 inches.*

- Lessen mechanical breakdowns and lost operating time
- Save time through automated maintenance schedules
- Keep lift trucks operating at peak performance
- Interface to legacy systems via XML

## Generate Lease Profits through Accurate Invoices

- Track and bill operating hours exactly

## Increase Sales and Lease Customers

- Offer competitive lease plans based on projected usage
- Promote customer satisfaction derived from LiftTraks
  - Know they are being billed for actual usage
  - Able to project expenses through historic data
  - Can predict service requirements and costs
  - Interfaces into current systems
- Accurately monitor rental hours for max billing revenue
- Market LiftTraks as a means to increase up-time on customer's lift trucks

**LiftTraks™**  
Lift Truck Monitoring for Profitability
